Offer Price £236.25

Why do I need infection control?

Because it's now an essential service, and will continue to be after Covid-19 is over

- 1 To protect your customers from air and surface borne infections now and in the future.
- 2 To protect you and your staff from illness.
- 3 To shield your business from the costs of staff absences, H&SE inspections, legal challenges for non-compliance with Covid-19 regulations.

Why do I need odour control?

Because vehicles accumulate bad smells all the time, often caused by germs and moulds coming out of the air vents.

- 1 More odours accumulate in colder, wetter seasons.
- 2 They build up out of sight in air channels, behind the dashboard and under the seats.
- 3 Take away Fast food and drink, wet dogs, babies and body odour all contribute.
- 4 To eliminate unpleasant effects of late-night taxi & minibus customers' over indulgences.
- 5 It's a great added value service offering at any time.

The Purifier

Harnesses the natural power of Ozone gas (O₃) getting into every nook and cranny to destroy

- Viruses, Bacteria, Fungal spores and Micro-organisms
- Odours of all kinds
- Tobacco smoke
- Pollens and other allergens

It purifies the air, kills germs on hard trim surfaces, fabric upholstery and carpets, as well as inside the air ducts and the A/C evaporator chamber where unpleasant odours and contaminants accumulate. Crucial for vehicle fleet cars with multiple drivers and/or passengers, taxis, minibuses, trucks & delivery vehicles and the ultimate solution for after service vehicle valeting, refinishing and detailing.

Airco Shield Tiltable Face Visor

Made in the UK with a durable injection moulded headband and replaceable visor. Protects your eyes and whole face from splashes and droplets expelled by coughs & sneezes.

Airco Shield Hand Sanitiser Gel

Certified to [BS-EN1276](#), [BS-EN14476](#), [BS-EN 1650](#), [BS-EN13277](#)

Made in UK, and kind-to-hands with 70% cosmetic grade ethanol, purified water and skin conditioner. A thickening agent slows down the evaporation rate, to give active ingredients enough time to work. Lotion dispenser pump fitted.

Airco Breeze Sanitiser Spray

It gets right into the evaporator chamber behind the dashboard. The 60cm application tube's spray nozzle distributes sanitiser liquid on to all surfaces in the air channels and into the vehicle cabin.

Airco Refresh

Quick and easy to use, this single treatment total release aerosol sanitiser quickly circulates around the vehicle interior, and through the air channels. Made in the UK.

Airco Shield Surface Sanitiser Spray

Certified to [BS-EN1276](#), [BS-EN14476](#), [BS-EN1650](#)

Made in the UK with ethyl alcohol, purified water and ingredients that reduce the evaporation rate, ensuring effective disinfection. Fitted with a trigger spray head.
